

COMENIUS PROJECT

“I&R - European Industrial technology and Robotics, new educational approaches for creative learning”

Mobility action to: FRANCE - Jaunay Clan (Poitiers) - 8th - 13th November 2014

PROGRAMME

8th November:

- Arrival of the Spanish partners

9th November:

- visit of Poitiers and its roman monuments
- Arrival of the Maltese partners

10th November

At school:

- 8 am - 9 am Presentation of the meeting's program. Visit of the school and its robotics labs.
- 9 am - 10 am Lesson of French with Slovak students studying at the French school
- 10 am Welcome by Head teacher and the French staff
- 10.30 - 12 am Robotic's workshops for Spanish and French students (NXT Mindstorms robots)
- Lunch at school's canteen
- 1.50 - 5.30 pm International workshop on the "State of robotics research"; preparation and recording of students radio shows on the school's radio

11th November:

- Visit of the Futuroscope theme park and its robotics linked attractions

12th November:

- Students workshops at school: programming the Arduino card
- Visit of the Robotics Department of the Pprime institute (University of Poitiers)
- Visit of the Higher Engineering School of Aerodynamics (ENSMA)
- Lunch at school's canteen
- Teachers workshop on the project progress and on the preparation of the robotics activities in Spain

13th November:

- departure of the partners
