

# HUMAN FLOW

## *OUR IMPRESSION*

Human Flow wants to make us realize that the world needs more justice and respect for each other and for human rights. It's a report about compassion and many emotions; the fear, the withdrawal, isolation... It's also a question about the trust. We can see and understand that the populations are very strong to support things like this : they are ready to defy dangers for a better life, although they are far from their countries.

## *A FEW DEFINITIONS*

The film is about the migratory flow which is the most important since the World War 2. We saw 23 different countries where the situation is the same : people are forced to leave their home because of many reasons like the war, starvation produced by the dryness.

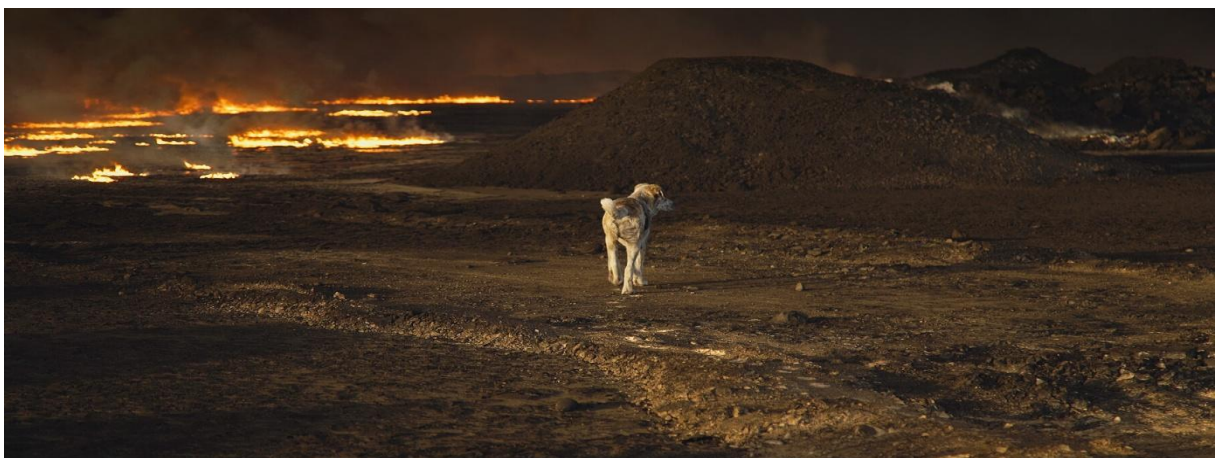

## *WHAT WE DIDN'T KNOW BEFORE*

We didn't know that they could have access to social network while they are in a run, looking for a safe place to live.

## *COUNTRIES*

In the film, we saw 23 different countries. There were Afghanistan, Bangladesh, France, Greece, Germany, Iraq, Italy, Mexico, Kenya, Turkey, Israel and 12 others. Despite the change of nation, they all look the same with war, dryness, starvation or the reception of the migrants.
