

A different class lesson

This Tuesday, the class lesson in 9c, 11a and 11e was very different. Under the leadership of Mr. Todor Todorov, a teacher of history and civilization in PGRE "G. S. Rakovski" - Violeta Bakalova and Zlatomira Popova had prepared presentations and videos on migration.

The initiative is being carried out within the framework of Project No 2017-1-NO01-KA219-034168_2 - "Migration in Europe - Let's share our differences and move on!" Under Erasmus +.

The topic of migration is also systematically discussed by Mrs. Dora Petkova and her students in the philosophy classes.

The aim of these activities is to achieve better awareness of the different types of migration processes and to overcome the negative attitude towards them by focusing on the positive aspects of this social phenomenon.

The prepared and presented materials can be found at the following link:
