

Let's share our differences and move on

The students of Rakovski High School had the opportunity to participate in the seminar on "Migration" organized in the context of project № 2017-1-NO01-KA219-034168_2 - "Migration in Europe - let's share our differences and move on!" under the Erasmus + program.

The problems were presented by Assistant Professor Vanya Stamatova - PhD in International Law and International Relations at Burgas Free University. The lecturer uses an informal method to clarify key concepts of migration.

The dialogue with the audience continued during the presentation of laws in the EU and in The Republic of Bulgaria, which aim to control this complex process.

The large number of questions addressed to Assistant Professor Vanya Stamatova is undisputed proof of the relevance of the seminar and the interest of the participants in it.

The meeting ended with a kind of competition to test the knowledge gained using the new technologies and the Kahoot platform.

The seminar responded to questions we all asked and contributed to more understanding and tolerance of migration processes in Europe and the EU.
