

As part of the European initiative #ERASMUSDAYS 2018 Rakovski High School organized several events.

We have filmed the testimonies of some students who have participated to our European projects.

The video is available at the following address: <https://youtu.be/ik-AtrNIASE>

In the Erasmus area + an exhibition with photos of the highlights of the mobilities carried out during the first year of the project "Europe - our common project" was presented.

The problem of the project "Migration in Europe - Let's share our differences and move on!" inspired our students who made drawings and exhibited them in the Erasmus + area.

A group of our learners took part in a meeting with immigrants from Russia and Ukraine, where issues of concern to today's youth were discussed.

All these events are presented on the sites of our high school <http://gre-rakovski.com> and our projects - <http://blogpeda.ac-poitiers.fr/migrationerasmus/> and <http://iclasse.eu/europe/> .
