

Visiting Poitiers in February

From 11 to 17 February, 2019 students and their teachers from „G.S.Rakovski” Secondary School in Burgas were on a work meeting in Poitiers, France. Within the frame of the project „Migration in Europe – let’s share our differences and move on“ they took part in numerous activities organised by „Victor Hugo” High school.

At the opening ceremony the headmistress of the school welcomed the teams from four different European countries. Then a magnificent concert related to the topic of the project followed.

Our delegations were warmly welcomed in the Town Hall of Poitiers and greeted by the Deputy Mayor of Education and Culture.

The following days we met different representatives of the local migration institutions and associations. University teachers and academics from MIGRINTER presented their research

work concerning migration processes in different European countries as well as their results. It was emphasised on the legal norms on migration that were enacted in the EU and therefore had to be observed in all the EU member countries.

Our hosts formed multinational teams called „Young reporters” that described and reported the everyday activities and summarised the results at the end.

The participating students created posters for the travelling exhibition in the workshops through a beneficial team work. They also interviewed migrants studying in Victor Hugo High school and explored the classroom of the future or took part in a slam concert-debate.

Thanks to the perfect organisation of our hosts, all the objectives set in the candidacy document of the project and more particularly those ones for that meeting, were achieved.

All good things come to an end so does our meeting in Poitiers. In our case it will be remembered as an exciting meeting of different generations, ethnicities and nationalities accompanied by marvellous musical performances and dances.

We would like to express our sincere thanks to our colleagues from „Viktor Hugo”High School in Poitiers and to invite you to visit the website of the project <http://blogpeda.ac-poitiers.fr/migrationerasmus> and our Facebook page <https://www.facebook.com/groups/850640388443848/> so that you have the opportunity to explore and enjoy our experience.
