

*Victor Hugo is a high school very animated
During the break it is alive and smoky
Even in it's hallways and noisy classrooms
Despite that this school is warm
Even if for some people classes are boring
But I can tell you when you have your high school
diploma you will be happy*

Welcome to our old school high school
• Henceforth new high school appointed
« lycée Victor Hugo »

- built a long time ago located in center of town
- All realized by the Martineau brothers
- Do you know Victor Hugo the great Writer ?
- Author of « Les Misérables » and author of «Le Rhin »
- He welcomes us now in this great high school
- Where thousands of students are gathered

I'm talking to you about France Bloch-Sérazin

she was from a beautiful family of intellectuals

She obtained her baccalaureat at Victor Hugo High school

She died tragically

Born February 21, 1913

Killed in 1943

She was a resistant during the second world war

It was bad luck for Fritz a real number 13

A room of Victor Hugo High school is called France B

It is a great tribute to this resistant

France Bloch Sérazin was a great leader

It's a brain teaser to understand this rubiks cube,
Thinking to get the same colors,
To reach our goal,
We have to go through different corridors.

In the morning, climbing the three floors upset you,
and the metal statue in the courtyard, you'll tell me if you like it,
if you need to do your business, don't go to the last floor,
and if you need to take a bite, there is always the common room.

In time, the students helped each other to yeild the CDs of the library,
Now being angry means detention in the local of the school community,
If you are not fit you are a cripple, but for that there is the nursery,
They no longer cured with salt, and your name is in their summary.

I'll tell you about the different options
General studies and technological studies
Here at Victor Hugo, there is no mystery
There're four things, it makes perfect sense

The S will be the next scientists

They're doing their chemistry and physics classes

Mathematics does not mate?? my click

Always present during anatomy

L is for those who love literature

They learn all the Renaissance

They love culture and writing

And have a lot of knowledge

ES is the social and economic studies

It's for those who see themselves in trade

For the ferry, it's ideal and too great

The high schoolers in BTS observe them

Finally, there is the STMG

They study economics and law

But we also have management and French

And all this, we do it with Mister A.

Victor Hugo high school, rather than alive
We propose really a lot of activities
Entertaining us in the large high school
Where all people would like to participate

It would appear it's really warm
You can see that all people are happy
With the house some students everybody eat well
Thanks to their superb services all morning

The teaching are rather satisfactory
A lot of subjects are at our disposal
All of graduates come out triumphant
Their bac they have practically all with distinction

Couleurs de peaux

Alexia

I'm Alexia, soft and sweet black
I'd like to tell you my beautiful story
I come from this country, called Gabon
where we find metals and oil in quantity

Nazra

I'm Nazra and my skin is brown
As if it was written on my forehead
I come from this beautiful island of Mayotte
Whether it's here or down there, I have friends

Emilie

**I'm Emilie, the little mixed blood woman
My hair is frizzy and not smooth
My beloved country is Madagascar
Proud to be from down there as if I had an Oscar**

Charlène

I'm Charlene with white skin
People say we're not in the same business
I was born in this beautiful France
You could say that right now, I'm not too lucky

Gabonaise

Poitevine

**We all have differences
No need for resemblance
We may not have the same skin
colour
For some we are not all equal**

Malgache
