Your first evening in your host family : How did you feel ?

The first evening in my host family was great! First they showed me the house and my room which was adorable. In my room on my big bed I found a big fluffy turtle which was awesome because I love plush toys. After that I had a shower and then we had dinner. While we were eating we were talking and the evening was wonderful! After that I went to sleep because I was very tired and my host family was too. I felt like I was at home!

What are your impressions about this school ?

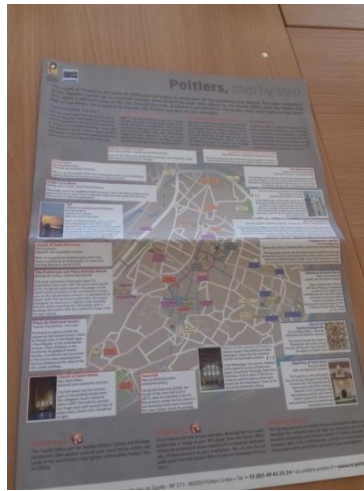

The school was so big, beautiful and with modern equipment. The teachers, the students and the staff were so kind and smiley.

My activities ;

My first workshop:

My first workshop was the rally. It was so interesting and I learnt a lot of information and history about Poitiers.

My second workshop:

My second workshop was the meeting with the migrants. It was very interesting and useful because it gave me so much information and experience about the migration.

What did you learn about migrants and migration :

Migration happens often and everywhere. People who do not like the living standard in their country or there are a lot of wars decide that their life will be better in other

country so they migrate. In France there are migrants from all over the world which is incredible!

Cultural visits

We visited different cultural places like churches, Migration Centre, Planetarium and a lot of other places which were so beautiful!

Who did you meet ?

I met a lot of French, Italians and Norwegians. Also I met my host girl who came at my house and the other French girl that came in Bulgaria which was great because I missed them so much. I am so thankful for the meetings with the people because they gave me so much experience!

Whom do you want to keep in touch with ?

With everyone because everyone was so nice but particularly I communicate most often with the French people!
